**Board Considers Requests for New Water Service at Jim Miller Park and New Assisted Living Facility**

On Wednesday, January 23<sup>rd</sup>, the District's Board held their regular meeting at 9AM and heard two requests for new water service: one from Olde Towne Nipomo Association regarding Jim Miller Park and the other from Valerie Williams regarding the development of an assisted living facility.

In June 2012, following a failed property tax measure to fund a supplemental water pipeline project, the Board suspended the processing of applications for new water service (Ordinance 2012-117). The Board is scheduled to consider bidding a phased supplemental water pipeline project on February 13, 2013 and is scheduled to consider awarding the bid and commencing construction on the project in April 2013. Furthermore, a District ordinance provides Board Policy on considering variance requests related to District requirements. Ms. Williams specifically requested that the Board *"remove the moratorium and return all policy, resolution and code to its former status."*

The Board denied the requests for processing of an application for new-water service and directed the project proponents to return in April following the Board's decision on supplemental water. The Board expressed support for the concept of both the projects but cited concern of current state of water resources as a paramount issue that must be resolved prior to processing applications for new water connections to the District's system.

Next Scheduled Board Meeting: Wednesday, February 13, 2013, 9AM, District Board Room 148 South Wilson, Nipomo
