

## Do You Want to Know...

What is a rain garden?

How does a rain barrel work? How do you connect it?

What is 'pervious' pavement?

Do you want up to \$999 to help you save water and use rain efficiently?

The County is sponsoring a workshop to explain rain gardens and other different storm water practices. It will be held on **May 20, 2015 at 6pm** at the Nipomo Community Services District Board Room. The workshop will feature short films, and Q&A time so residents can find out what is involved in creating and using these landscape features.

For a limited time, a residential rebate program called "StormRewards" will help eligible residents design, install and pay for these rain-friendly practices.

Rebates up to \$999 will be available for rain-friendly projects such as rain gardens, pervious pavement, and rain barrels. Come to the workshop and learn more about the StormRewards Program, such as participant eligibility and other requirements. Visit [www.stormrewards.org](http://www.stormrewards.org) for more information.
