**Court Appointed Technical Group Releases Spring 2019 Index
Area Groundwater Remains in Severe Water Shortage Condition**

The Nipomo Mesa Management Area (NMMA) Technical Group has confirmed the Spring 2019 groundwater basin conditions after receiving well level measurements from the San Luis Obispo County Public Works Department.

The area saw average rainfall this past winter. The 2019 KWI value (15.9 feet mean sea level [ft msl]) has slightly increased from the previous year (13.8 ft msl), but remains within the Severe Water Shortage Conditions (below 16.5 ft msl). This is the fifth consecutive year the KWI value is in Severe Water Shortage Conditions, which signifies a Stage IV NMMA Water Shortage Response.

For more information and to review the NMMA's full statement, please visit the District's website www.ncsd.ca.gov or contact the District at info@ncsd.ca.gov.

###

Established in 1965 to meet the health and sanitation needs of the local community, Nipomo Community Services is pleased to provide a wide variety of services throughout its district including the provision of water, sewer, and waste management services as well as lighting and drainage in limited areas. The mission of Nipomo Community Services District is: Provide our customers with reliable, quality, and cost-effective services now and in the future.
