ANNUAL COMPREHENSIVE FINANCIAL REPORT (AUDIT REPORT) FOR FISCAL YEAR 2020-2021

ITEM

Review Annual Comprehensive Financial Report (Audit Report) for Fiscal Year 2020-2021 [RECOMMEND RECEIVE AND FILE 2020-2021 AUDIT REPORT]

BACKGROUND

The District is required by law to have an independent audit performed annually on its financial statements. Rogers, Anderson, Malody & Scott, LLP (RAMS) conducted the annual audit for the fiscal year ending June 30, 2021, in accordance with Generally Accepted Accounting Principles.

The audit report has been completed in the Annual Comprehensive Financial Report (ACFR) format. The completed audit will be submitted to the Government Finance Officers Association (GFOA) for review and consideration for a Certificate of Achievement for Excellence in Financial Reporting. The District's audit report received this prestigious recognition of accounting excellence the past eight consecutive years.

Mr. Shea, CPA will present the attached audit report to your Honorable Board and will answer any questions you may have regarding the audit.

RECOMMENDATION

Upon completion of the presentation and public comments, a motion would be in order to accept and file the Audit Report for Fiscal Year 2020-2021.

October 20, 2021

To the Board of Directors and Citizens of the Nipomo Community Services District:

We are pleased to present the Nipomo Community Services District's (hereinafter referred to as "the District") Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2021. The purpose of this report is to provide the Board of Directors, customers, investors, the public and other interested parties with reliable financial information about the District.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Rogers, Anderson, Malody & Scott, LLP, Certified Public Accountants, have issued an unmodified ("clean") opinion on the Nipomo Community Services District's financial statements for the year ended June 30, 2021. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the District

Nipomo Community Services District was organized January 28, 1965 under the provisions of the California Community Services District Law (Sections 61000 et seq. of the Government Code of the State of California) for purposes of supplying water for domestic, irrigation, sanitation, industrial, commercial, recreation and fire suppression use. The District is located off of Highway 101 on the central coast of California between San Francisco and Los Angeles, in San Luis Obispo County. The District includes approximately 4,450 acres of land comprising seven square miles. The District's service area includes portions of the unincorporated area of Nipomo and currently serves a population of approximately 13,500. The District provides water service to approximately 4,480 customer accounts and provides sewer service to approximately 3,700 customer accounts under two separate wastewater systems, the Town Sewer Division and the Blacklake Sewer Division.

The District has operated under the Board of Director-General Manager form of government since its inception. Policy-making and legislative authority are vested in a governing board (Board) consisting of five members elected on a non-partisan basis by qualified voters in the District to four-year terms. Board members serve overlapping four-year terms. The Board employs the General Manager who is responsible for carrying out the policies of the Board, for overseeing the day-to-day operations of the District and the hiring of all District employees.

Under law, community services districts may perform a variety of municipal services if authorized to do so by the residents thereof. The District provides water, sewer, solid waste, limited street lighting, limited street landscape maintenance and limited drainage and general administrative services.

The District's Board annually adopts a budget prior to the new fiscal year. The budget authorizes and provides the basis for financial reporting, control of financial operations and accountability for the District's enterprise operations and capital projects. Quarterly financial reports are also presented to the Board.

Economic Conditions

On July 2, 2015, the District began purchasing supplemental water from the City of Santa Maria ("City") pursuant to the May 7, 2013, Wholesale Water Supply Agreement ("Agreement"). The Agreement has a term end date of June 30, 2085, at which time parties can elect to extend the Agreement. The terms of the Agreement between the District and the City are subject to the contract renewal between the City and the Central Coast Water Authority of which the City is a member.

During fiscal year 2020-2021, the District purchased 1053 acre-feet of water. The District paid a volumetric charge of \$2,123.72 per acre-foot (AF) for imported water purchased between July 1, 2020 to December 31, 2020 and \$2,203.78 per AF on imported water purchased from January 1, 2021 to June 30, 2021, plus a volumetric operational cost of \$211.68 per AF. Of the 1053 AF, the District sold 175.43 AF (16.66%) of the supplemental water to Woodlands Mutual Water Company and 175.43 AF (16.66%) to Golden State Water. The District retained the balance of 702.14 AF (66.68%) for use by District customers.

The cost of supplemental water is built into the District's water rates. All District customers pay a fixed water charge based on the water meter size and a volumetric charge based on the number of units used.

Relevant Financial Policies - COVID-19 Pandemic

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. On March 4, 2020, the Governor of California proclaimed a state of emergency in California and issued Executive Order N-25-20 in further response to the spread of COVID-19, mandating compliance with state and local public health officials. On March 13, 2020, San Luis Obispo County declared a local public health emergency and issued a series of orders, which generally align, among other matters, with the Governor's order.

On March 24, 2020, the Board of Directors of the District declared an emergency and authorized additional specified authority for the General Manager, including but not limited to, the waiving of late fees and penalties on unpaid or delinquent water bills, to enter into any payment arranges with customers he deems advisable, and to postpone or cancel the termination of water services for non-payment of charges. The District continues to process customer utility bills (bi-monthly for residential and monthly for commercial accounts) and monitors accounts receivable. The District has a reserve fund and a rate stabilization fund and does not anticipate having to draw on these accounts due to the ongoing pandemic.

Major Initiatives

Nipomo Supplemental Water Project

Beginning July 1, 2020 through June 30, 2021, the District purchased 1053 acre-feet of water from the City thereby exceeding the required 1000 acre feet per year (AFY) take or pay volume of water for the year. Beginning July 1, 2025, the District is obligated to take or pay for 2,500 AFY. To reach this level of commitment, the District will need to complete the Supplemental Water Project (SWP). The fiscal year 2020-2021 Budget included \$4.2 million in improvements to the SWP including the Nipomo Area Pipeline Improvement Project of \$2.6 million, purveyor interconnects of \$700K and pump station improvements of \$900K. As of the end of the fiscal year, the Nipomo Area Pipeline Improvement Project was completed and the pump station improvements project had commenced. The purveyor interconnects project has been carried over into the fiscal year 2021-2022. The District foresees completion of the Supplemental Water Project by fiscal year 2023, two years ahead of schedule.

Blacklake Assessment District 2020-1

On March 11, 2020, the District initiated assessment proceedings with the intention to form the Blacklake Assessment District (Blacklake Sewer Consolidation). On May 13, 2020, a public hearing was held and a majority protest did not exist (22% protested). On August 12, 2020, \$11,225,000 in bonds were issued to fund the design, acquisition and construction of certain public capital facilities needed to combine the District's two sewer systems serving the town of Nipomo and the Blacklake community. The bonds were issued pursuant to the provisions of the Improvement Bond Act of 1915. Unpaid assessments constitute fixed liens on the parcels assessed within the Assessment District and do not constitute a personal indebtedness of the respective owners of parcels. Accordingly, in the event of a delinquency, proceedings may be taken only against the real property securing the delinquent assessment.

The consolidation project design, engineering and environmental work is in progress with construction expected to begin Spring 2022 and is anticipated to be completed by the end of the year 2023.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Excellence in Financial Reporting to Nipomo Community Services District for its comprehensive annual financial report for the fiscal year ended June 30, 2020. This was the eighth consecutive year that the District achieved this prestigious award. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that our staff members bring to the District. We would also like to thank the members of the Board of Directors for their continued support in the planning and implementation of the Nipomo Community Services District's fiscal policies.

Respectfully submitted,

Mario Iglesias

We have audited the financial statements of the business-type activities and the fiduciary fund of Nipomo Community Services District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the business-type activities and the fiduciary fund of the District as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America, as well as the accounting systems prescribed by the State Controller's Office and State Regulations governing Special Districts.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the State Controller's *Minimum Audit Requirements for California Special Districts*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1 of the financial statements, the District adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*. Our opinions are not modified in respect to this matter.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of District's internal control. Accordingly, no
 such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The supplementary information schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information schedules listed in the table of contents are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory section, combining financial schedules, and statistical section but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 20, 2021, on our consideration of the internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Rogers, Anderson, Malody e Scott, LLP.

San Bernardino, California October 20, 2021

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Nipomo Community Services District (District) provides an introduction to the financial statements of the District for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the basic financial statements and related notes, which follow this section.

Financial Highlights

- After restatements, the District's Net Position increased 1.38% to \$74.0 million.
- During the year the District's operating revenues increased 9.50%, while operating expenses increased 12.36%. Interest income earnings decreased due to a drop in interest rates.
- Other revenue-purveyors is attributable to Contracts Receivable from Woodlands Mutual Water Company and Golden State Water Company pursuant to the Supplemental Water Management and Groundwater Replenishment Agreement dated October 16, 2015.
- Capital contributions consist of capacity charges collected of \$129,797 and contributions
 of Work in Process valued at \$377,231 from the Blacklake Assessment District 2020-1,
 for a total of \$507,028. This was offset by a one-time capital contribution transfer of
 \$1,000,000 from the Blacklake Sewer Enterprise Fund to the Blacklake Assessment
 District 2020-1 resulting in a net capital contribution of (\$492,972).

Required Financial Statements

The Financial Statements of the District report information utilizing the full accrual basis of accounting. The Financial Statements conform to accounting principles which are generally accepted in the United States of America and consist of three interrelated statements designed to provide the reader with relevant, understandable data on the District's financial condition and operating results. They are 1) the Statement of Net Position, 2) the Statement of Revenues, Expenses and Changes in Net Position, and 3) the Statement of Cash Flows.

The Statement of Net Position, or the difference between assets, deferred outflows of resources, deferred inflows of resources, and liabilities, measures the financial health of the District. Over time, increases or decreases in the District's net position may serve as a useful indicator of whether its financial health is improving or deteriorating. However, other nonfinancial factors such as changes in economic conditions, population growth, and new or changed government legislation must also be considered.

The Statement of Revenues, Expenses and Changes in Net Position identifies the District's revenues and expenses for the fiscal year ended June 30, 2021. This statement provides information on the District's operations over the past fiscal year and can be used to determine whether the District has recovered all of its actual and projected costs through user fees and other charges.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

The Statement of Cash Flows provides information on the District's cash receipts, cash payments, and changes in cash resulting from operations, investments and financing activities. From the Statement of Cash Flows, the reader can obtain information on the source and use of cash and the change in the cash balance since the prior fiscal year.

Financial Analysis of the District

One of the most important questions asked about the District's finances is, "Is the District, as a whole, better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report information about the District in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid. These two statements report the District's net position and changes in net position. You can think of the District's net position - the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources - as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other nonfinancial factors such as changes in economic conditions, population growth, zoning, and new and changed government legislation.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found on pages 18 through 48.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

TABLE 1
Condensed Statements of Net Position

	2024	2020	Current Year Increase/
Assets	2021	2020	(Decrease)
Current and other assets Capital assets, net	\$ 28,516,289 68,384,623	\$ 29,694,739 67,166,271	\$ (1,178,450) 1,218,352
Total assets	96,900,912	96,861,010	39,902
Deferred outflows	1,478,706_	1,256,019	222,687
Liabilities			
Current liabilities Noncurrent liabilities	2,414,584 21,975,740	3,094,912 21,958,624	(680,328) 17,116
Total liabilities	24,390,324	25,053,536	(663,212)
Deferred inflows	29,744	113,357	(83,613)
Net position			
Net investment in capital Restricted Unrestricted	49,321,146 13,127,214 11,511,190	47,607,041 10,293,338 15,049,757	1,714,105 2,833,876 (3,538,567)
Total net position, as restated	\$ 73,959,550	\$ 72,950,136	<u>\$ 1,009,414</u>

The District's net position at fiscal year June 30, 2021 increased \$1,009,414 (1.38%) when compared to fiscal year end June 30, 2020.

The increase in Net Investment in Capital, \$1,714,105, represents an increase in capital assets acquired and placed into service. The increase in Restricted Net Position, \$2,833,876, represents resources that are subject to external restrictions on how they may be used. The remaining balance of Unrestricted Net Position, \$11,511,190, as of June 30, 2021, may be used to meet the District's ongoing obligations to its citizens and creditors.

Net position - ending	\$ 73,959,550	\$ 72,950,136	\$ 1,009,414

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

Total operating revenues increased \$913,132 (9.50%). Water Revenue increased \$590,402. Town Division sewer revenues increased \$34,890 and Blacklake Division sewer revenues increased \$95,529.

Total operating expenses increased \$1,136,269 (12.36%). Operational costs increased throughout the year and the cost of supplemental water purchased from the City of Santa Maria increased.

District non-operating revenues and expenses increased \$422,670. The fall in interest rates resulted in a decrease in interest income of \$302,201. Revenue recognized as contracts receivable from Woodlands Mutual Water Company and Golden State Water Company pursuant to the Supplemental Water Management and Groundwater Replenishment Agreement dated October 16, 2015 increased \$744,380.

TABLE 3 Capital Assets

More information about the District's Capital assets is presented in Note 5 of the Notes to Basic Financial Statements.

	2021	2020	Current Year Increase/ (Decrease)
Non-depreciable assets Depreciable assets Accumulated depreciation	\$ 3,817,901 91,142,250 (26,575,528)	\$ 5,998,477 85,793,340 (24,625,546)	\$ (2,180,576) 5,348,910 (1,949,982)
Total capital assets, net	\$ 68,384,623	\$ 67,166,271	\$ 1,218,352

The increase in depreciable assets and decrease in non-depreciable assets is attributable to construction work in progress being completed and place in service.

Total capital assets, net increased as the costs of equipment purchases and on-going construction projects exceeded the increase in accumulated depreciation.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

TABLE 4 Long Term Debt

	2021	2020	Current Year Increase/ (Decrease)
Certificates of Participation Series 2013 Refunding Revenue Bonds Series 2013A Certificates of Participation Series 2012	\$ 8,485,420 2,200,576 8,377,481	\$ 8,626,803 2,337,447 8,594,980	\$ (141,383) (136,871) (217,499)
Total long-term debt	\$ 19,063,477	\$ 19,559,230	\$ (495,753)

Standard & Poor's Rating Service reviewed the Certificates of Participation Series 2013 and Refunding Revenue Bonds Series 2013A in August 2018 and raised the underlying rating from "A" to "AA-".

Standard & Poor's Rating Service reviewed the Certificates of Participation Series 2012 in October 2015 and downgraded the credit rating from "AA" to "AA-".

The Standard & Poor's rationales are available for review upon request.

Additional information on long-term debt is presented in Note 6 of the Notes to Basic Financial Statements.

Economic Factors and Next Year's Budgets and Rates

The District is governed by provisions of the California Special District Code that require rate-based revenues must cover the cost of Operations, Maintenance and Repairs (OM&R) and capital improvement projects. The District is not subject to general economic conditions such as increases or reductions in property tax values or other types of revenues, such as sales taxes, that vary with economic conditions. Accordingly, the District sets its rates to its users to cover the costs of OM&R, capital improvement projects, plus any increments for known or anticipated changes in enterprise costs.

On May 7, 2013, the District entered into a Wholesale Water Supply Agreement that provides a mechanism through which the District will purchase supplemental water from the City of Santa Maria. The District is obligated to purchase minimum quantities of water each year regardless of the District's ability to accept and deliver said water. The District's current infrastructure will need to be expanded within the next five years to meet the minimum delivery volumes required by the agreement. The District is currently required to purchase 1,000 acre feet per year (year seven of the contract). In year eleven (fiscal year 2025-2026), the minimum delivery requirement will reach 2,500 acre feet, the highest level in the purchase agreement.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

A court judgment issued in connection with litigation regarding the Santa Maria groundwater basin requires Golden State Water Company, Rural Water Company (subsequently purchased by Golden State Water in 2015), and Woodlands Mutual Water Company to pay their respective shares of the costs of the supplemental water being purchased from Santa Maria and the infrastructure improvements required for the delivery of the supplemental water to the NMMA. The Nipomo Supplemental Water Project Supplemental Water Management and Groundwater Replenishment Agreement was executed on October 16, 2015. This agreement obligates those three companies to pay 33.32% of the supplemental water costs and related project capital costs beginning as of July 2, 2015.

Water consumption increased 5.1% in fiscal year 2020-2021 compared to the previous fiscal year. The District completed a water rate study in August 2020. The first of five rate increases that went into effect January 1, 2021.

The Town Division completed a wastewater rate study in April 2021. The first of five rate increases will go into effect August 1, 2021. The Blacklake Sewer Division is in its third of a five-year rate schedule. The next rate increase will be effective April 1, 2022.

Requests for Information

This financial report is designed to provide the District's elected officials, customers, investors, creditors and other interested parties with an overview of the District's financial condition, as well as insight into current fiscal practices and management. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the District's Finance Department at 148 South Wilson Street, Nipomo, CA 93444 or (805) 929-1133.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Nipomo Community Services District (District) is a multi-purpose special district and was formed on January 28, 1965 and began operations in November 1966. The District is a political subdivision of the State of California and operates under a Board of Directors - General Manager form of government. The District provides water, sewer, street lighting, solid waste, street landscape maintenance, drainage and general administrative services.

The District complies with U.S. Generally Accepted Accounting Principles (GAAP) and all relevant U.S. Governmental Accounting Standards Board (GASB) pronouncements. These technical pronouncements establish criteria for determining the organization's activities and functions that are included in the financial statements of a governmental unit.

Reporting Entity

For financial reporting purposes, the District would include in this report all funds of all agencies and boards that are controlled by, or dependent upon, the District's legislative body. The criteria of control is determined on the basis of financial accountability, imposition of will, and financial benefit or burden.

The Nipomo Community Services District Public Facilities Corporation is a component unit of the District. This Corporation was formed in 2003 to issue Revenues Certificates of Participation (COP's). COP's were issued in 2003, 2012 and 2013. The financial activity of the corporation is blended into the financial statements of the District.

The District is a member of the Special District Authority Risk Management Joint Powers Agency, which was organized for the purpose of providing general liability, automobile, errors and omissions, and property loss insurance coverage to special districts. This organization is financed through premium charges to each member. This organization does not meet the aforementioned reporting entity criteria and therefore is not included in the accompanying financial statements.

Fund Financial Statements

The accounts of the District are organized into proprietary/enterprise funds. Enterprise funds use the economic resources measurement focus. The accounting objectives are a determination of net income, financial position, and cash flows. All assets, deferred outflows of resources and liabilities, deferred inflows of resources associated with an enterprise fund's activities are included on the statement of net position.

Fiduciary funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, and/or other funds.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Basis of Accounting

The enterprise funds of the District are accounted for using the accrual basis of accounting. Revenues, including user fees and service charges, are recognized when earned, and expenses are recognized when incurred.

Budgets and Budgetary Accounting

An annual budget is adopted by the Board of Directors at the start of each fiscal year. Any changes or revisions to that budget throughout the year must be approved by the Board of Directors.

Estimates

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating Revenues and Expenses

Operating revenues, such as charges for services (water and wastewater fees), result from exchange transactions associated with the principal activities of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as property taxes and investment income, result from non-exchange transactions or ancillary activities in which the District gives (receives) value without directly receiving (giving) equal value in exchange.

Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All expenses not meeting this definition are reported as non-operating expenses.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Accounts Receivable

Water and sewer charges are billed bi-monthly for all residential customers and monthly for all commercial customers. Property liens are placed when customer account receivables are deemed uncollectible by the District. The District did not experience any significant bad debt losses and therefore no provision has been made for doubtful accounts. Accounts receivable is shown at full value.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Capital Assets

All capital assets are valued at historical cost or estimated historical cost if actual costs are not available. Other donated capital assets are valued at their acquisition value on the date received. The capitalization threshold for all capital assets is \$5,000. Depreciation has been provided over the estimated useful life of the asset using the straight-line method.

The estimated useful lives are as follows:

Wastewater Treatment Plant and Collection System

Water Supply/Distribution System

Buildings/Blowers

General Plant Machinery and Equipment

50 years

20-50 years

20 years

5-10 years

Compensated Absences

Depending on the length of continuous service, a range of 10-20 vacation and 12 days of sick leave per year may be accumulated by each employee. The District accrues a liability for compensated absences which meet the following criteria:

- 1. The District's obligation relating to employee's rights to receive compensation for future absences is attributable to employee's services already rendered.
- 2. The obligation relates to rights that vest or accumulate.
- 3. Payment of the compensation is probable.
- 4. The amount can be reasonably estimated.

In accordance with the above criteria, the District has accrued a liability for vacation and sick pay which has been earned but not taken by District employees.

Net Position

The financial statements utilize a net position presentation. Net position is categorized as follows:

- Net Investment in Capital Assets This component of net position consists of capital assets, net of accumulated depreciation and reduced by any debt outstanding against the acquisition, construction or improvement of those assets.
- 2. Restricted This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.
- 3. Unrestricted This component of net position consists of net position that does not meet the definition of restricted net position or net investment in capital assets.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Net Position Flow Assumption

Sometimes the District will fund expenses for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date

June 30, 2019

Measurement Date

June 30, 2020

Measurement Period

July 1, 2019 to June 30, 2020

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date

June 30, 2020

Measurement Date

June 30, 2020

Measurement Period

July 1, 2019 to June 30, 2020

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Capital Contributions

Capital contributions are recorded when cash for capacity fees or capital assets is received from developers, customers, or other governmental entities, and the purpose is for other than operating expenses.

Property Taxes

The County of San Luis Obispo bills and collects property taxes for the District. The County charges the District for these services. Tax revenues are recognized by the District in the year received. The property taxes are levied on July 1 and are due on November 1 and March 1. Property taxes become delinquent after December 10 and April 10 for the first and second installments, respectively. The lien date is January 1.

Special Assessment Debt

In August 2020, the District issued Assessment District No. 2020-1 bonds in the amount of \$11,825,292. The bonds are not secured by the general taxing power of the District. The bonds were secured by the unpaid assessment on each parcel of land. The District is not obligated in any manner.

Reclassification

The District has reclassified certain prior year information to conform with current year presentation, with no effect on net position.

Implementation of New Pronouncement

GASB has issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists.

NOTE 2: CASH AND CASH EQUIVALENTS

Cash and cash equivalents as of June 30, 2021, are classified as follows:

Current assets:		
Cash and cash equivalents	\$	17,594,557
Noncurrent assets:		
Restricted cash - funded replacement		1,201,942
Cash with fiscal agent		596,881
Total cash and cash equivalents	\$_	19,393,380

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 2: CASH AND CASH EQUIVALENTS, (continued)

Cash and cash equivalents at June 30, 2021, consist of the following:

Cash on hand	\$ 600
Bank deposits	1,415,997
Deposits with bond trustees	596,881
Local Agency Investment Fund (LAIF)	 17,379,902
Total cash and cash equivalents	\$ 19,393,380

NOTE 3: INVESTMENTS

Investments Authorized by the District's Investment Policy

The District is authorized to invest in the following institutions:

- 1. County pooled funds (California Government Code Section 27133(g), 53635, 61053)
- 2. The Local Agency Investment Fund (LAIF) created by the California State Treasury (California Government Code Section 16429.1, 61053)
- 3. One or more FDIC insured banks and/or savings and loan associations that are designated as District depositories by resolution of the Board of Directors (California Government Code Section 61053)
- 4. Such other financial institutions or securities that may be designated by the Board of Directors from time to time in compliance with California and Federal law.
- 5. Proceeds of bond issuance shall be invested in accordance with the permitted investment provisions of their specific bond indentures or other instrument providing for the bond issuance (California Government Code Section 5922(d), 53601(m))

The District's investment policy contains specific provisions intended to limit the District's exposure to interest rate risk, credit risk, and concentration of credit risk.

Investments Authorized by Debt Agreements

Investments of debt proceeds held by a bond trustee are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy. The table below identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum Maturity
Money Market Mutual Funds	5 Years
Federal Agency Securities	5 Years
State and Local Instruments	5 Years
Certificates of Deposits	5 Years
Repurchase Agreements	5 Years
Local Agency Investment Fund (LAIF)	5 Years

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 3: INVESTMENTS, (continued)

Disclosure Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates may adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The weighted average maturity of the investments contained in the LAIF investment pool is approximately 6 months.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the maturity date of each investment:

Local Agency Investment Fund \$ 17,379,902 Maturity Date 9.7 months average maturity

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429.1 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the entity's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. LAIF does not have a rating provided by a nationally recognized statistical rating organization.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by the state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit).

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 3: INVESTMENTS, (continued)

Custodial Credit Risk, (continued)

The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgages notes having a value of 150% of the secured public deposits. The District may waive collateral requirements for deposits which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC).

As of June 30, 2021, the District's deposits with financial institutions in excess of the Federal Deposit Insurance Corporation (FDIC) limits were fully collateralized by securities in a separate account held by the same institution, but not in the District's name.

The custodial risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

Concentration of Risk

The District's investment policy does not contain limitations on the amounts that can be invested in any one governmental agency or non-governmental issuer beyond that as stipulated by the California Government Code. As of June 30, 2021 the District's deposit portfolio with government agencies, LAIF, was 100%.

Fair Value Measurements

Generally accepted accounting principles establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of quoted prices (unadjusted) for identical assets and liabilities in active markets that a government can access at the measurement date, Level 2 inputs that are observable for an asset or liability, either directly or indirectly, and Level 3 inputs have the lowest priority and consist of unobservable inputs for an asset or liability.

The District's investment in the Local Agency Investment Fund of \$17,379,902 is not subject to the fair value hierarchy.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 4: CONTRACT RECEIVABLE

On October 16, 2015, the Supplemental Water Management and Groundwater Replenishment Agreement (the Agreement) was made between the Nipomo Community Services District, Rural Water Company, the Woodland Mutual Water Company of San Luis Obispo County and Golden State Water Company, effective July 1, 2015. The Parties, along with hundreds of other individuals and entities are parties to a certain legal proceedings entitled Santa Maria Valley Water Conservation District v. City of Santa Maria, et al., Superior Court of the State of California. County of Santa Clara, Consolidated Cases CV770214 (Santa Maria Litigation), regarding the respective rights of the litigants to groundwater resources in the Santa Maria Ground Water Basin. After lengthy proceedings, the court entered into an amended judgment on April 17, 2014 which provides for the long-term management of the Basin water resources. The Judgment requires NCSD to ultimately purchase and transmit a minimum of 2,500 acre-feet of Nipomo Supplemental Water each year. The District is further required to employ its best efforts to timely implement the Nipomo Supplemental Water Project. The Judgment further provides that once the Nipomo Supplemental Water is capable of being delivered, the Parties to the Agreement are to purchase designated portions of the Nipomo Supplemental Water each year to offset ground water pumping in the Nipomo Mesa Management Area.

The District has entered into a Wholesale Water Supply Agreement with the City of Santa Maria dated May 7, 2013. The District and City of Santa Maria's agreement provides a mechanism through which the District may purchase Nipomo Supplemental Water for sale and distribution in the Nipomo Supplemental Water Project, consistent with obligations in the Judgment. The District has completed construction of the first stage of the Nipomo Supplemental Water Project and the District began taking delivery of Nipomo Supplemental Water as of July 1, 2015.

On or about June 25, 2015, the California Public Utilities Commission approved Golden State Water Company's acquisition of Rural Water Company. The Golden State Water Company assumed the entirety of Rural Water Company's benefits and obligations under such Agreement. The purpose of the Agreement is to enable the Parties to meet their respective obligations under the Judgement, provide payment to NCSD for each Party's allocation of costs, and for the distribution and use of Nipomo Supplemental Water. Per the Agreement, the District is to operate the Nipomo Supplemental Water Agreement as an enterprise fund, separating all costs associated to Nipomo Supplemental Water Project within and only to that fund. The amortization period for capital costs is 30 years beginning July 1, 2015. Interest will be charged monthly on the remaining unamortized balance as of the prior month end. As of June 30, 2021, the Contract Receivable associated with the Agreement is \$6,831,963.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 5: CAPITAL ASSETS

Changes in capital assets for the current year were as follows:

	June 30, 2020	Additions	Deletions/ Transfers	June 30, 2021
Non-depreciable capital assets:				
Land	\$ 1,113,700	\$	\$ =	\$ 1,113,700
Construction in progress	4,884,777	2,936,328	(5,116,904)	2,704,201
Total non-depreciable				
capital assets	5,998,477	2,936,328	(5,116,904)	3,817,901
Depreciable capital assets:				
Buildings and improvements	83,183,613	5,062,245	(99,304)	88,146,554

Certificates of Participation

Revenue Certificates of Participation - Series 2012

The District issued \$9,795,000 of Revenue Certificate of Participation (COP's) to be used for Southland Wastewater Treatment Facility Upgrade. The COP's bear interest ranging from 2.00% to 4.125% per annum.

The outstanding 2012 bonds contain a provision that if an event of default occurs and continues, the timing of repayment of outstanding amounts become due if (1) if the District is unable to make a payment, (2) if the District fails perform any of the agreements or covenants required to be performed by it under the Installment Agreement, and such default continues for a period of thirty (30) days after the District has been given notice in writing of such default by the Corporation; or (3) the District files a petition or answer seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if a court of competent jurisdiction approves a petition filed with or without the consent of the District seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if under the provisions of any other law for the relief or aid of debtors any court of competent jurisdiction assumes custody or control of the District or of the whole or any substantial part of its property.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 6: LONG-TERM LIABILITIES, (continued)

Certificates of Participation, (continued)

Principal is to be paid annually starting June 1, 2013 through June 1, 2042. Annual principal payments range from \$145,000 to \$570,000 as follows:

Year Ending			
June 30,	Principal	Interest	Total
2022	\$ 265,000	\$ 330,248	\$ 595,248
2023	275,000	319,648	594,648
2024	285,000	311,398	596,398
2025	295,000	302,136	597,136
2026	305,000	291,812	596,812
2027-2031	1,710,000	1,272,046	2,982,046
2032-2036	2,080,000	901,408	2,981,408
2037-2041	2,540,000	440,344	2,980,344
2042	570,000_	23,512	593,512
	\$8,325,000	\$4,192,552	\$ 12,517,552

Revenue Certificates of Participation - Series 2013

The District issued \$9,660,000 of Revenue Certificate of Participation (COP's) on June 21, 2013. The proceeds are to be used for the Supplemental Water Project Phase 1. The COP's bear interest ranging from 1.0% to 4.625% per annum.

The outstanding 2013 bonds contain a provision that if an event of default occurs and continues, the timing of repayment of outstanding amounts become due if (1) if the District is unable to make a payment, (2) if the District fails perform any of the agreements or covenants required to be performed by it under the Installment Sale Agreement, and such default continues for a period of thirty (30) days after the District has been given notice in writing of such default by the Corporation; or (3) the District files a petition or answer seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if a court of competent jurisdiction approves a petition filed with or without the consent of the District seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if under the provisions of any other law for the relief or aid of debtors any court of competent jurisdiction assumes custody or control of the District or of the whole or any substantial part of its property.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 6: LONG-TERM LIABILITIES, (continued)

Certificates of Participation, (continued)

Principal is to be paid annually starting September 1, 2014 through September 1, 2043. Annual principal payments range from \$135,000 to \$725,000 as follows:

Year Ending			
June 30,	Principal	Interest	Total
2022	\$ 155,000	378,025	\$ 533,025
2023	160,000	373,100	533,100
2024	160,000	367,900	527,900
2025	165,000	362,000	527,000

2032-2036	1,910,000	1,387,773	3,297,773
2037-2041	2,900,000	823,534	3,723,534
2042-2044	2,075,000	146,962	2,221,962
	\$8,675,000	\$5,857,663	\$14,532,663

Revenue Bonds

Revenue Bonds 2013A

The District issued \$2,845,000 of Refunding Revenue Bonds, Series 2013A on May 30, 2013. The proceeds were used to refund the Revenue Certificate of Participation (COP's) that were originally issued on May 1, 2003. The Refunding Revenue Bonds bear interest ranging from 3.7% to 4.8% per annum. Principal is to be paid annually starting September 1, 2014 through September 1, 2032.

The outstanding 2013A bonds contain a provision that if an event of default occurs and continues, the timing of repayment of outstanding amounts become due if (1) if the District is unable to make a payment, (2) if the District fails perform any of the covenants, agreements or conditions required to be performed by it under the Indenture or Bonds, and such default continues for a period of thirty (30) days after the District has been given notice in writing of such default by the Corporation; or (3) the District files a petition or answer seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if a court of competent jurisdiction approves a petition filed with or without the consent of the District seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if under the provisions of any other law for the relief or aid of debtors any court of competent jurisdiction assumes custody or control of the District or of the whole or any substantial part of its property.

NOTE 7: DEFINED BENEFIT PENSION PLAN

A. General Information about the Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan or PERF C) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of a miscellaneous pool and a safety pool (also referred to as "risk pools"), which are comprised of individual employer miscellaneous and safety rate plans, respectively. Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under generally accepted accounting principles. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The District sponsors three rate plans (all miscellaneous). Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website, at www.calpers.ca.gov.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

A. General Information about the Pension Plan, (continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan operates under the provisions of the California Public Employees' Retirement Law (PERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by the CalPERS Board of Administration. The Plan's authority to establish and amend the benefit terms are set by the PERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the CalPERS Board.

The Plan's provisions and benefits in effect at June 30, 2021 are summarized as follows:

	Miscellaneous	Miscellaneous	Miscellaneous
Hire Date	Tier I	Tier II	PEPRA
Benefit formula	3.0% @ 60	3.0% @ 60	2.0% @62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50 and up	50 and up	52 and up
Monthly benefits, as a % of eligible compensation	2.0% to 3.0%	2.0% to 3.0%	1.0% to 2.5%
Required employee contribution rates	8.00%	8.00%	7.25%
Required employer contribution rates	16.34%	15.62%	7.87%

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

A. General Information about the Pension Plan, (continued)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions. Employer Contributions to the Plan for the fiscal year ended June 30, 2021 were \$320,704. The actual employer payments of \$275,007 made to CalPERS by the District during the measurement period ended June 30, 2020 differed from the District's proportionate share of the employer's contributions of \$284,765 by \$9,758, which is being amortized over the expected average remaining service lifetime in the Public Agency Cost-Sharing Multiple Employer Plan.

B. Net Pension Liability

The District's net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability is measured as of June 30, 2020, using an annual actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is as follows.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

Purchasing Power Protection Allowance floor on purchasing power applies, 2.5% thereafter

(1) The mortality table used was developed based on CalPERS' specific data. The probabilities of mortality are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from December 2017 that can be found on the CalPERS website.

All other actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website, at www.calpers.ca.gov.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

B. Net Pension Liability (continued)

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by asset class are as follows:

New Strategic	Real Return	Real Return
Allocation	Years 1-10 ²	Year 11+3
50.00%	4.80%	5.98%
28.00%	1.00%	2.62%
0.00%	0.77%	1.81%
8.00%	6.30%	7.23%
13.00%	3.75%	4.93%
1.00%	0.00%	-0.92%
100%		
	Allocation 50.00% 28.00% 0.00% 8.00% 13.00% 1.00%	Allocation Years 1-10² 50.00% 4.80% 28.00% 1.00% 0.00% 0.77% 8.00% 6.30% 13.00% 3.75% 1.00% 0.00%

¹ In the System's ACFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-

Change of Assumptions

The Plan adopted a new amortization policy effective with the 2019 actuarial valuation. The new amortization policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount. In addition, the new policy does not utilize a five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy also does not utilize a five-year ramp-down on investment gains/losses. These changes apply only to new UAL bases established on or after June 30, 2019.

Term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

²An expected inflation of 2.00% used for this period

³ An expected inflation of 2.92% used for this period

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

B. Net Pension Liability (continued)

Discount Rate

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Information about the pension plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position are presented in CalPERS' audited financial statements, which are publicly available reports that can be obtained at CalPERS' website, at www.calpers.ca.gov. The plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis used by the pension plan, which is the economic resources measurement focus and the accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

C. Proportionate Share of Net Pension Liability

The following table shows the Plan's proportionate share of the net pension liability over the measurement period.

	Increase (Decrease)					
	Т	Total Pension Plan Fiduciary				Vet Pension
	Liability		Net Position		Liability	
	(a)		(b)		(c) = (a) - (b)

Valuation Date (VD), Measurement Date (MD)

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

C. Proportionate Share of Net Pension Liability, (continued)

The District's proportion of the net pension liability was determined by CalPERS using the output from the Actuarial Valuation System and the fiduciary net position, as provided in the CalPERS Public Agency Cost-Sharing Allocation Methodology Report, which is a publicly available report that can be obtained at CalPERS' website, at www.calpers.ca.gov. The District's proportionate share of the net pension liability for the miscellaneous Plan as of the June 30, 2019 and 2020 measurement dates was as follows:

Proportionate Share of NPL - June 30, 2019	0.04313%
Proportionate Share of NPL - June 30, 2020	0.04492%
Change - Increase (Decrease)	0.00179%

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability of the miscellaneous Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

	Disc	count Rate -1%	Current Discount Rate		Discount Rate +1%	
		(6.15%)		(7.15%)		(8.15%)
Net Pension Liability	\$	2,995,057	\$	1,894,758	\$	985,614

Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

C. Proportionate Share of Net Pension Liability, (continued)

Amortization of Deferred Outflows and Deferred Inflows of Resources, (continued)

The amortization period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on pension plan investments

5 year straight-line amortization

All other amounts

Straight-line amortization over the expected average remaining service lives (EARSL) of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the Public Agency Cost-Sharing Multiple-Employer Plan (PERF C).

The EARSL for PERF C for the measurement period ending June 30, 2020 is 3.8 years, which was obtained by dividing the total service years of 548,581 (the sum of remaining service lifetimes of the active employees) by 145,663 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

As of the start of the measurement period (July 1, 2019), the District's net pension liability was \$1,727,302. For the measurement period ending June 30, 2020 (the measurement date), the District incurred a pension expense of \$432,462.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 7: DEFINED BENEFIT PENSION PLAN, (continued)

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions, (continued)

As of June 30, 2021, the District has deferred outflows and deferred inflows of resources related to pensions as follows:

		Deferred Outflows of Resources		red Inflows esources
Differences Between Expected and				
Actual Experience	\$	97,642	\$	1 -
Changes of Assumptions		(4)		13,514
Difference Between Projected and				
Actual Investment Earnings		56,287		-
Change in Employer's Proportion		56,089		1,723
Differences Between Employer's Contributions				
and Proportionate Share on Contributions		7,214		14,507
Pension Contributions Subsequent to the				
Measurement Date	-	320,704		
Total	\$	537,936	\$	29,744

The amounts above are net of outflows and inflows recognized in the 2019-20 measurement period expense. Contributions subsequent to the measurement date of \$320,704 reported with deferred outflows of resources will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

5	Deferred
Fiscal Year	Outflows/(Inflows)
Ended June 30:	of Resources
2022	\$ 42,072
2023	65,896
2024	52,522
2025	26,998
2026	=
Thereafter	:=

E. Payable to the Pension Plan

At June 30, 2021, the District reported a payable of \$7,671 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2021.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 8: OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Plan Description

The District has established a Retiree Healthcare Plan (HC Plan), and participates in an agent multiple-employer defined benefit retiree healthcare plan. District provides post-retirement health care benefits through the California Public Employees' Retirement System. In general, to be eligible for retiree medical benefits, an employee must retire from CALPERS on or after age 50 with at least 5 years of District service. For employees hired prior to February 1, 2006, the District's financial obligation is to pay 100% of the cost of coverage for the eligible retiree and any eligible dependents. For employees hired on or after February 1, 2006, the District's contribution percentage is based on the employee's years of CALPERS eligible service at retirement starting at 50% for employees with 10 years increasing by 5% per year of service up to 100% at 20 years of service. The District's maximum contribution is based on this contribution percentage applied to the average weighted premium rates established annually by CALPERS. A separate financial report is not prepared for the HC Plan.

Employees Covered

As of the June 30, 2020 actuarial valuation, the following current and former employees were covered by the benefit terms under the HC Plan:

Active employees	18
Inactive employees or beneficiaries currently receiving benefits	9
Total	27

Contributions

The District pays retiree medical benefits directly to CalPERS. For fiscal year ended June 30, 2021, the District paid \$102,569 in retiree medical benefits. In fiscal year 2008, the District established an Irrevocable Trust with the CalPERS' California Employer's Retiree Benefit Trust (CERBT). The Irrevocable Trust was required to fully implement the District's direction of prefunding the District's OPEB liability. For fiscal year June 30, 2021, the District's cash contribution to CERBT was \$101,000 in payments to the trust and the estimated implied subsidy of \$31,610 resulting in total OPEB payments of \$235,179. The District's contributions to the OPEB plan are not based on a measure of pay.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 8: OTHER POST-EMPLOYMENT BENEFITS (OPEB), (continued)

Net OPEB liability

The District's net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2020, based on the following actuarial methods and assumptions:

Discount Rate 6.50% Inflation 2.50%

Salary Increases 3.00% - Per annum

Investment Rate of Return 6.50%

Mortality Rate CalPERS 2017 Experience Assumptions;

Mortality projection using MacLeod Watts Scale

2020 generationally

Healthcare Cost Trend

Rates 7% to 5% step 0.5%

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
		expected real rate
Asset Class	Target Allocation	of return
TIPS	5%	0.25%
Fixed Income	25%	1.10%
Global Equities	59%	4.80%
REIT's	8%	3.20%
Commodities	3%	1.50%
Total	100%	
	,=	

Discount Rate

The discount rate used to measure the total OPEB liability was 6.5% percent. The long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 8: OTHER POST-EMPLOYMENT BENEFITS (OPEB), (continued)

Changes in the OPEB Liability

The changes in the net OPEB liability for the HC Plan are as follows:

	Total OPEB _Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (c)= (a) - (b)
Balance at June 30, 2020			
(Valuation Date June 30, 2020)	\$ 2,962,458	\$ 1,800,366	\$ 1,162,092
Changes recognized for the measurement period	:

OPEB Plan Fiduciary Net Position

CalPERS issues a publicly available CERBT financial report that may be obtained from the CalPERS' website at www.calpers.ca.gov.

Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments

5 years

All other amounts

Expected average remaining service

lifetime (EARSL) (7.87 Years at June 30, 2020)

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 8: OTHER POST-EMPLOYMENT BENEFITS (OPEB), (continued)

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2021, the District recognized OPEB expense of \$345,625. As of fiscal year ended June 30, 2021, the District reported deferred outflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
OPEB contributions subsequent to				
measurement date	\$	235,179	\$	-
Changes of assumptions		548,419		-
Differences between expected				
and actual experience		132,941		=
Net difference between projected and actual				
earnings on OPEB plan investments		24,231		8
Total	\$	940,770	\$	

The \$235,179 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2020 measurement date will be recognized as a reduction of the net OPEB liability during the subsequent year. Other amounts reported as deferred outflows of resources related to OPEB will be recognized as expense as follows:

Fiscal Year	Deferred Outflows/(Inflows)	
Ended June 30:	of Resources	
2022	\$ 122,059	_
2023	132,082	
2024	136,022	
2025	135,408	
2026	100,550	
Thereafter:	79,470	

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 9: NET POSITION

At June 30, 2021, the components of net position consisted of the following:

Net investment in capital assets:			
Capital assets, not being depreciated		- \$	3,817,901

NOTE 10: JOINT POWERS AUTHORITY

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Special District Risk Management Authority (SDRMA), an intergovernmental risk sharing joint powers authority created to provide self-insurance for California special districts. The purpose of the SDRMA is to arrange and administer programs of self-insured losses and to purchase excess insurance coverage.

At June 30, 2021, the District participated in the liability and property programs of the SDRMA as follows:

General Liability: Special District Risk Management Authority, coverage number LCA SDRMA 202021. This covers \$10,000,000 per occurrence.

<u>Public Officials and Employees Errors</u>: Special District Risk Management Authority, coverage number LCA SDRMA 202021. This covers \$10,000,000 per occurrence/general aggregate.

<u>Personal Liability Coverage for Board Members</u>: Special District Risk Management Authority, coverage number LCA SDRMA 202021. This covers \$500,000 per occurrence/general aggregate.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 10: JOINT POWERS AUTHORITY, (continued)

<u>Employment Practices Liability</u>: Special District Risk Management Authority, coverage number LCA SDRMA 202021. This covers \$10,000,000 per wrongful employment practice/aggregate limits per member.

<u>Employment Benefits Liability</u>: Special District Risk Management Authority, coverage number LCA SDRMA 202021. This covers \$10,000,000 per occurrence/general aggregate.

Employee Dishonesty Coverage: Special District Risk Management Authority, coverage number EDC SDRMA 202021. This policy includes a \$1,000,000 Public Employees Dishonesty Blanket Coverage.

<u>Auto Liability</u>: Special District Risk Management Authority, coverage number LCA SDRMA 202021. This policy covers \$10,000,000 per occurrence with personal injury and property damage.

<u>Automobile Physical Damage</u>: Special District Risk Management Authority, coverage number LCA SDRMA 202021. The coverage is on file with SDRMA.

<u>Uninsured/Under Insured Motorist</u>: Special District Risk Management Authority, coverage number UMI SDRMA 202021. The coverage is on file with SDRMA.

<u>Trailer Coverage</u>: District Risk Management Authority, coverage number LCA SDRMA 202021. The coverage is on file with SDRMA.

<u>Property Coverage</u>: Special District Risk Management Authority, coverage number PPC SDRMA 202021. This policy covers the replacement cost for scheduled property, \$500,000,000 per occurrence. Deductible is on file with SDRMA.

<u>Boiler and Machinery</u>: Special District Risk Management Authority, coverage number PPC SDRMA 202021. This covers the replacement cost for scheduled property, \$500,000,000 per occurrence. Deductible is on file with SDRMA.

<u>Workers Compensation Coverage and Employer's Liability</u>: Special District Risk Management Authority, coverage number WCP SDRMA 202021. This coverage is statutory per occurrence, respectively for workers' compensation and \$5,000,000 for employers' liability coverage.

Settled claims have not exceeded any of the coverages in any of the last three fiscal years. There were no reductions in insurance coverage in fiscal year 2021. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2021.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

NOTE 11: CONTINGENCIES

Santa Maria Valley Water Conservation District v. City of Santa Maria, et al., Santa Clara County Superior Court, Case No. CV 770214.

This case relates to the District's right to produce water from the Santa Maria groundwater basin. The District is a defendant and cross-defendant in the case and has filed its own cross-complaint.

Issues brought forth in the case include claimed priority to the right to produce water from the subject water basin, rights to store and produce native and imported water in and from the basin, and a call for a court-ordered management plan (physical solution) to manage storage in and water production from the basin while preserving the basin as a resource.

There are more than 1,500 involved parties in the action. The litigation does not involve claims for current or past liability, but it may result in a rise in the cost of water production and distribution to District customers or a decline in the amount of water available in areas serviced by the District. A number of parties, including the District, have stipulated to a settlement in the case. Final judgement has now been entered, and two published decisions have been issued by the Court of Appeal related to the final judgment and its interpretation: (1) *City of Santa Maria v. Adam* (2012) 211 Cal.App.4th 266; and (2) *City of Santa Maria v. Adam* (2016) 218 Cal.App.4th 504. The trial court continues to have jurisdiction over this matter, and continues to schedule Case Management Conferences every 3 or 4 months. The next Case Management Conference is scheduled to take place December 17, 2021.

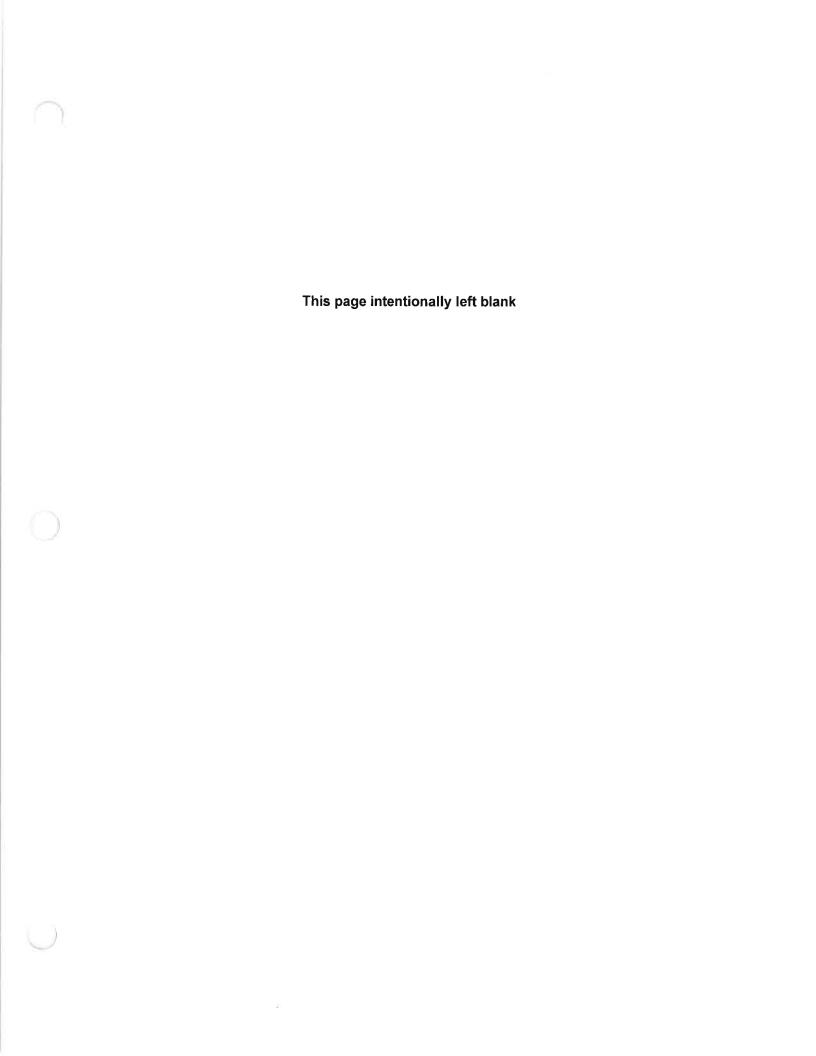

On April 15 & 16, 2019, certain landowners filed the following complaints: 1) Koch California Ltd., et al. v. City of Santa Maria, et al. (Case No. 19-CV-0227), pending in San Luis Obispo County Superior Court; 2) JC & Elsie Teixeira Family Limited Partnership v. City of Santa Maria, et al. (Case No. 19-CV-0230), in San Luis Obispo County Superior Court; 3) JC & Elsie Teixeira Family Limited Partnership v. City of Santa Maria, et al. (Case No. 19-CV-02086), pending in Santa Barbara County Superior Court; and Adam L. Kieran, et al., v. City of Santa Maria, et al. (Case No. 19CV02091), in Santa Barbara County Superior Court. The District, and all other public purveyors in the Santa Maria Groundwater Adjudication, were named defendants. The public purveyor defendants filed a petition to request that the Judicial Council determine that these four complaints be coordinated with the Santa Maria Groundwater Litigation in Santa Clara County Superior Court. That petition was granted, and these four actions have now been stayed pending transfer to the Santa Clara County Superior Court.

Notes to the Basic Financial Statements For the Year Ended June 30, 2021

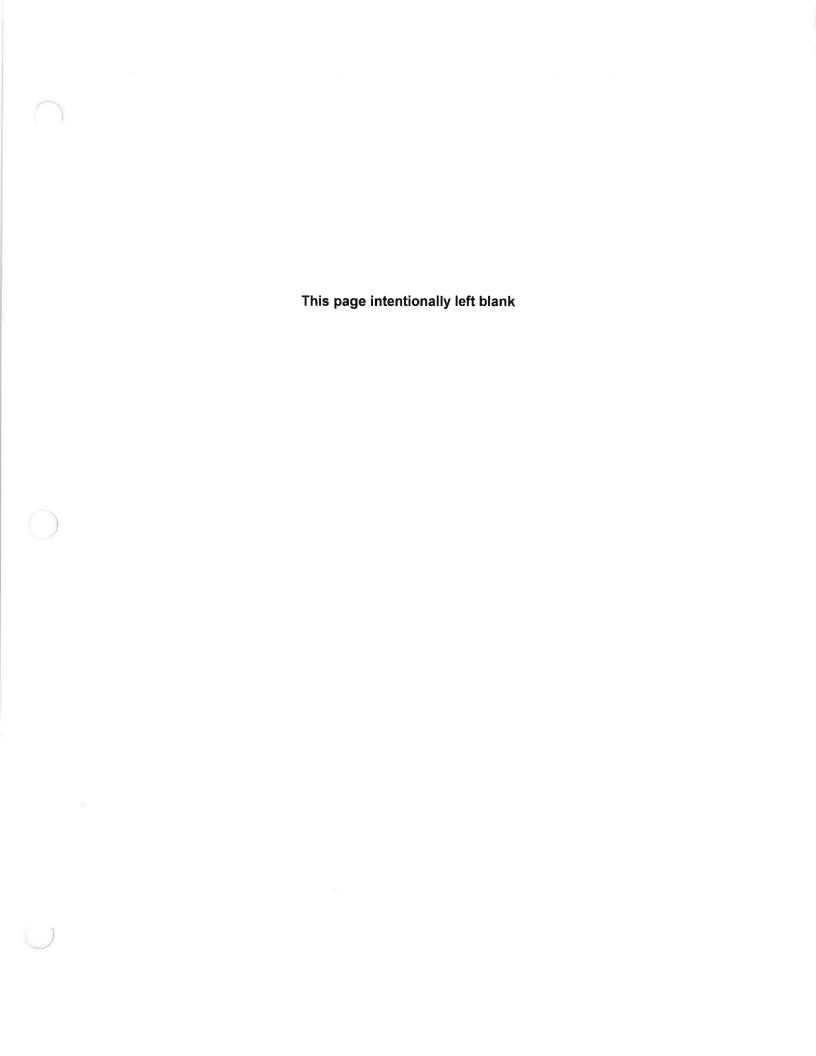

NOTE 12: PRIOR PERIOD ADJUSTMENT

As discussed in Note 1, the District implemented GASB Statement No. 84. Accordingly, beginning net position for the year ended June 30, 2021, has been restated as follow:

Nipomo Community Services District - Proprietary Funds		Amount
Net position, beginning of year, as previously stated	\$7	3,837,603

Notes to Schedule:

Change in Benefit Terms: None

Changes in Assumptions: For 2020, the Plan adopted a new amortization policy effective with the 2019 actuarial valuation. The new amortization policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount. In addition, the new policy does not utilize a five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy also does not utilize a five-year ramp-down on investment gains/losses. These changes apply only to new UAL bases established on or after June 30, 2019. There were no changes in assumptions in 2019. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate in 2019. In 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes in the discount rate. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

^{*} Measurement date 6/30/2014 (fiscal year 2015) was the first year of implementation. Additional years will be presented as information becomes available.

STATISTICAL SECTION

This part of the Nipomo Community Services District's (the District) annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information say about the District's overall financial health.

Table of Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	60-63
Revenue Capacity These schedules contain information to help the reader assess the District's two most significant revenue sources, water and sewer sales.	64-72
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	73-77
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	78-80
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	81-84

To the Board of Directors Nipomo Community Services District Nipomo, California

We have audited the financial statements of Nipomo Community Services District (the District) as of and for the year ended June 30, 2021, and have issued our report thereon dated October 20, 2021. Professional standards require that we advise you of the following matters relating to our audit.

October 20, 2021

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated April 30, 2021, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, and our firm have complied with all relevant ethical requirements regarding independence.

Significant Risk

We have identified the possibility of the following significant risk(s):

- Management's override of internal controls over financial reporting.
- Management's failure to recognize revenue in accordance with generally accepted accounting principles.

Qualitative Aspects of the District's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note 1 to the financial statements. As described in Note 1 of the financial statements, during the year, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 84, Fiduciary Activities. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements are:

Management's estimate of capital asset depreciation is based on historical estimates of each capitalized item's useful life. We evaluated the key factors and assumptions used to develop the estimated useful lives in determining that it is reasonable in relation to the financial statements taken as a whole.

The estimate of the other post-employment benefits is based on actuarial reports provided by independent actuaries. We evaluated the key factors and assumptions used to develop the estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the net pension liability is based on actuarial reports provided by independent actuaries. We evaluated the key factors and assumptions used to develop the estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the District's financial statements relate to:

The disclosure of accumulated depreciation in the financial statements is based on estimated useful lives which could differ from actual useful lives of each capitalized item.

The disclosure of the other post-employment benefits (OPEB) in the basic financial statements identifies the annual OPEB cost and the funded status of the actuarial accrued liability. The information disclosed is based on actuarial assumptions which could differ from actual costs.

The disclosure of net pension liability in the financial statements is based on actuarial assumptions. Actual future liabilities may vary from disclosed estimates.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. Management has corrected all identified misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the District's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the attached letter dated October 20, 2021.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

Other Information in Documents Containing Audited Financial Statements

Pursuant to professional standards, our responsibility as auditors for other information in documents containing the District's audited financial statements does not extend beyond the financial information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have applied certain limited procedures to Management's Discussion and Analysis, as well as, the Schedule of the District's Proportionate Share of the Plan's Net Pension Liability and Related Ratios as of the Measurement Date, the Schedule of Pension Plan Contributions, the Schedule of Changes in Net OPEB Liability and Related Rations and the Schedule of OPEB Contributions. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the Required Supplementary Information (RSI) and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Board of Directors and Management of the District and is not intended to be and should not be used by anyone other than these specified parties.

October 20, 2021

Rogers, Anderson, Malody & Scott, LLP 735 E. Carnegie Drive, Suite 100 San Bernardino, CA 92408

This representation letter is provided in connection with your audit of Nipomo Community Services District (the District) as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, for the purpose of expressing an opinion on whether the basic financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows, of the business-type activities in accordance with accounting principles generally accepted for governments in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm that, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves as of October 20, 2021:

Financial Statements

- We have fulfilled our responsibilities, as set out in the terms of the audit engagement dated April 30, 2021 for the preparation and fair presentation of the financial statements of the various opinion units referred to above in accordance with U.S. GAAP.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
- 4. We acknowledge our responsibility for compliance with the laws, regulations, and provisions of contracts and grant agreements.
- We have reviewed, approved, and taken responsibility for the financial statements and related notes.
- We have identified and communicated to you all previous audits, attestation engagements, and other studies related to the audit objectives and whether related recommendations have been implemented.
- Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
- 8. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.

- All events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure have been adjusted or disclosed.
- The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.
- 11. All funds and activities are properly classified.
- 12. All funds that meet the quantitative criteria in GASB Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, GASB Statement No. 37, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus as amended, and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, for presentation as major are identified and presented as such and all other funds that are presented as major are considered important to financial statement users.
- All components of net position are properly classified and, if applicable, approved.
- 14. Our policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available is appropriately disclosed and net position is properly recognized under the policy.
- 15. All revenues and expenses within the statement of revenues, expenses and changes in net position have been properly classified.
- All interfund and intra-entity transactions and balances have been properly classified and reported.
- 17, Deposit and investment risks have been properly and fully disclosed.
- 18. Capital assets, including infrastructure assets, are properly capitalized, reported, and if applicable, depreciated.
- All required supplementary information is measured and presented within the prescribed guidelines.
- 20. With regard to investments and other instruments reported at fair value:
 - a. The underlying assumptions are reasonable and they appropriately reflect management's intent and ability to carry out its stated courses of action.
 - b. The measurement methods and related assumptions used in determining fair value are appropriate in the circumstances and have been consistently applied.
 - The disclosures related to fair value are complete, adequate, and in accordance with U.S. GAAP.
 - d. There are no subsequent events that require adjustments to the fair value measurements and disclosures included in the financial statements
- 21. With respect to the Financial Statement Preparation, we have performed the following:
 - Made all management decisions and performed all management functions;
 - b. Assigned a competent individual to oversee the services;

- c. Evaluated the adequacy of the services performed;
- Evaluated the adequacy of the services performed;
- e. Evaluated and accepted responsibility for the result of the service performed; and
- f. Established and maintained internal controls, including monitoring ongoing activities.

Information Provided

- 22. We have provided you with:
 - a. Access to all information, of which we are aware that is relevant to the preparation and fair presentation of the financial statements of the business-type activities, such as records, documentation, meeting minutes, and other matters;
 - Additional information that you have requested from us for the purpose of the audit;
 and
 - Unrestricted access to persons within the District from whom you determined it necessary to obtain audit evidence.
- All transactions have been recorded in the accounting records and are reflected in the financial statements.
- 24. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
- 25. We have no knowledge of any fraud or suspected fraud that affects the District and involves:
 - a. Management;
 - b. Employees who have significant roles in internal control; or
 - c. Others where the fraud could have a material effect on the financial statements.
- 26. We have no knowledge of any allegations of fraud, or suspected fraud, affecting the district's financial statements communicated by employees, former employees, vendors, regulators, or others.
- 27. We have disclosed to you all known actual or possible litigation, claims, and assessments whose effects should be considered when preparing the financial statements.
- 28. We have disclosed to you the identity of the District's related parties and all the related party relationships and transactions of which we are aware.
- 29. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in accounting, internal control, or financial reporting practices.
- 30. The District has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
- 31. We have disclosed to you all guarantees, whether written or oral, under which the District is contingently liable.

- 32. We have disclosed to you all significant estimates and material concentrations known to management that are required to be disclosed in accordance with GASB Statement No. 62 (GASB-62), Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.
- 33. We have identified and disclosed to you the laws, regulations, and provisions of contracts and grant agreements that could have a direct and material effect on financial statement amounts, including legal and contractual provisions for reporting specific activities in separate funds.

34. There are no:

- a. Violations or possible violations of laws or regulations, or provisions of contracts or grant agreements whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, including applicable budget laws and regulations.
- b. Unasserted claims or assessments that our lawyer has advised are probable of assertion and must be disclosed in accordance with GASB-62.
- Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by GASB-62.
- 35. The District has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset or future revenue been pledged as collateral, except as disclosed to you.
- 36. We have complied with all aspects of grant agreements and other contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- 37. With respect to the net pension and net OPEB liabilities:
 - a. We believe that the actuarial assumptions and methods used to measure pension liability and expense for financial accounting purposes are appropriate in the circumstances.

Use of a Specialist

We agree with the findings of specialists in evaluating the net pension and net other post-employment benefit liabilities and have adequately considered the qualifications of the specialist in determining the amounts and disclosures used in the financial statements and underlying accounting records. We did not give or cause any instructions to be given to specialists with respect to the values or amounts derived in an attempt to bias their work, and we are not otherwise aware of any matters that have had an impact on the independence or objectivity of the specialists.

Pension and Postretirement Benefits

An actuary has been used to measure pension liabilities and costs. We believe that the actuarial assumptions and methods used to measure pension and other postemployment benefit liabilities and costs for financial accounting purposes are appropriate in the circumstances.

Mario Iglesias

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Nipomo Community Services District Nipomo, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Nipomo Community Services District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Nipomo Community Services District's basic financial statements, and have issued our report thereon dated October 20, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rogers, Anderson, Malody e Scott, LLP.
