GENERAL MANAGER’S REPORT

ITEM

Standing report to your Honorable Board -- *Period covered by this report is July 9, 2023 through July 22, 2023.*

DISTRICT BUSINESS

Administrative

The District encourages residents to provide reports of any observed water waste. The District also keeps an accounting of leak adjustments as a measure of non-revenue water lost to leaks, as well as tracking late fee waivers. The table below provides June data, the most recent data available.

OFFICE ACTIVITIES

	June 23	Jan 23 - June 23
Reports of Water Waste	0	0
Leak Adjustments	3	13
Leak Adjustment Amount	\$528	\$4,305
Late Fee Waivers	11	68
Late Fee Waiver Adjustment Amount	\$1,968	\$6,697

Water Resources

For the twelve months of the 2022-23 Fiscal Year, the District’s total combined production, including groundwater production wells and supplemental water imported through the Joshua Road Pump Station, registered 1,715 AF. As has been the trend of late, imported water through the Joshua Road Pump Station was greater than the groundwater production. This trend will continue through the year as the District strives to maintain the 50% groundwater reduction goal and the District’s contract take amount of 1,000 AFY minimum.

Table 1. Total Production Acre Feet (AF)

	June - 23	Jul 22 - June 23
Groundwater Production	64.1	600.7
Supplemental Water Imported	<u>100.3</u>	<u>1,114.4</u>
Total Production	164.4	1,715.1

NCSD GW Reduction

The District’s purveyor customers, Golden State Water Company and Woodlands Mutual Water Company, each are responsible for 16.66% (cumulatively 33.33%) of the imported water NCSD brings onto the basin through the NSWP. Of the 1,000 AF minimum imported water from the City of Santa Maria, 333 AF or 33.33% of the total imported water – whichever is greater – will be

credited to these two purveyor customers. The credited amount must be added to the District's groundwater pumping total every month to reflect the groundwater pumped by these customers in-lieu of taking imported water from the District. Table 2, below, captures this data.

	June - 23	Jul 22 – June 23
NCSW GW Well Production	64.1	600.7
Purveyor Customer Credit (33.3% of Import Water)	33.4	371.3
NCSW Total Calculated GW Production	97.5	972.0
Average GW Production for 2009-2013	263.6	2,533.4
NCSW Percentage of GW Reduction	63.0%	61.6%

2022 Fiscal Year Groundwater Pumping Forecast

Table 3 projects the District's groundwater pumping reduction for the 2022-23 Fiscal Year. Under the current Stage 4 of the NMMA Water Shortage Response Stages, the District's targeted groundwater pumping reduction goal is to pump no more than 1,266 AFY (50% of 2009-2013 average District GW Pumping). The twelve months of fiscal year 2022-23 actual – July through June – shows a actual groundwater pumping reduction of 61.6%.

	Year-to-Date		Target	Over_(Under)	AcFt
	Jun-23	Jul-Jun 2022			
NCSW GW Well Production	64.1	600.7			
Purveyor Customer Credit (33.3% of Import Water)	33.4	371.3			
NCSW Total Calculated GW Production	97.5	972.0	1,266.7	295	
Average GW Production for 2009-2013	263.6	2,533.4	2,533.4		
NCSW Percentage of GW Reduction	63%	61.6%	50.0%		

As demonstrated in Table 3 above, the District has achieved its 50% groundwater pumping reduction target by 295 AcFt under the conditions stated in the previous paragraph.

Below, Table 4 compares groundwater pumping for the same periods in 2023 and 2022.

	Jun-23	Jul 22 - Jun 23	Jun-22	Jul 22 - Jun 23
NCSW GW Well Production	64.9	600.7	86.6	785.1
Purveyor Customer Credit (33.3% of Import Water)	33.0	371.3	32.9	334.7
NCSW Total Calculated GW Production	97.9	972.0	119.5	1,119.8
Average GW Production for 2009-2013	199.0	2,533.4	199.0	2,533.4
NCSW Percentage of GW Reduction	50.8%	61.6%	39.9%	55.8%

The Table 4 data provides operations personnel with insight into year-end water production values and assists in their efforts to balance import and groundwater production with the purpose of reducing groundwater pumping to meet the self-imposed 50% pumping groundwater reduction – the current stage IV objective.

Rainfall Gauge

Since January, the rainy season has produced record rainfall. This accounts for the District’s ability to reduce its groundwater pumping to the extent demonstrated in the comparison table, Table 4. Below is the most recent available rain data.

(Reported in inches)	Nipomo East (Dana Hills Reservoirs)	Nipomo South (Southland Plant)

November 2023	NCS D Board	Adopt Annexation Agreement
December 2023	LAFCO Review & Approval	After Tax Sharing Agreement

The above schedule is suggested and drawn from conversations with staff from the County, LAFCO, and the Developer. This schedule is a rough outline and is subject to change over time.

Notes:

1. NCS D Staff will provided a staff report at the January 11th Board Meeting that provided the Board of Directors with more information and possible actions.
2. The Commission action is to consider a recommendation to the Board of Supervisors to: Certify the Final EIR, Adopt the CEQA findings, Approve the Specific Plan, Approve the Vesting Tentative Tract Map, Approve related General Plan and Ordinance amendments, Approve a related Conditional Use Permit.
3. Developer shifted to an annexation process that focuses first on LAFCO application and second the District's application process. Under this format, LAFCO will be the agency that coordinates communication between the Developer and NCS D.
Developer mailed letter September 20, 2022 to residents in Nipomo directing their attention to District website and the three reports addressing utilities – focus on explaining water situation.

RWG submitted comments on the Dana Reserve Specific Plan DEIR, August 1, 2022, to the County of San Luis Obispo supervision planner, Jennifer Guetschow.

Phasing Plan Schedule – Defines the fee schedule for the development. (May slip do to key NCS D staff shortage)

1. **DESAL Plan participation:** The following agencies have adopted resolutions or submitted letters agreeing to participate: the Cities of San Luis Obispo, Arroyo Grande, Morro Bay, Paso Robles, the Community Services Districts of Avila Beach, Cambria, Los Osos, Nipomo, San Miguel, Templeton, Oceano and other water purveyors, such as Atascadero Mutual, Golden State, San Miguelito and Santa Barbara County
 - a. Grover is targeting next week for consideration

2. **DESAL Plan scope / grant:** We submitted an application (attached) to USBR and anticipate hearing about awards no later than June. To fit the timing required for USBR's grant (project must be completed w/in 24 months), Phase 2 was broken into Phase 2a and Phase 2b (snippet of 5 phases below)
 - a. **Phase 2a (proposed grant scope)**
 - i. Will be completed within 24 months and, if awarded grant, will cost District \$550K and USBR \$550K for total \$1.2M project
 - ii. Will include public engagement, identifying/vetting/analyzing project concept alternatives
 - iii. Outcome will be "short-list" of potential projects to further pursue and scope/schedule/budget to do so in Phase 2b

Update: July 26, 2023

Mario Iglesias

b. Phase 2b (not proposed in grant scope)

- i. Will include more detailed analysis/studies of projects on “short-list”
- ii. Outcome will be selection of single preferred project to move forward to Phase 3

3. Desal planning meetings:

- a. CWAT meetings (TBD) – we’ll be reaching out for your availability soon to schedule the next CWAT meeting and round of working group / consultant meetings
 - the request for your availability may come from Jenny Williamson in our office – please respond at your earliest convenience so we can continue coordination with the consultants’ availabilities, etc.
- b. Board of Supervisors (April) – The grant application requires the District to adopt a resolution within 60 days of submitting the grant application. We plan to go to our Board on April 18 with the required resolution, along with an update on the scope and request for direction to return with a consultant contract

4. Misc. desal info just fyi

- a. Glenn Farrel (CalDesal Executive Director) sent over the CalDesal Regulatory Committee Meeting Agenda Packet; it includes a brief write-up on Innovations in Desalination and newly-introduced legislation relevant to desal projects
- b. Paul Herman (GHD contact) sent over the International Weekly Desal Report; it includes a brief write-up on the CalDesal conference (key note: the SWRCB representative said the State’s desal siting guidelines anticipated this summer will be out for public comment in April!)
