GENERAL MANAGER'S REPORT

ITEM

Standing report to your Honorable Board -- *Period covered by this report is 8/10/2025-9/6/2025.*

DISTRICT BUSINESS

Administrative

The District encourages residents to provide reports of any observed water waste. The District also keeps an accounting of leak adjustments as a measure of non-revenue water lost to leaks and tracks late fee waivers. The table below provides August 2025 data and calendar year 2025.

OFFICE ACTIVITIES	Aug 25	Jan 25 – July 25
Leak Adjustments	1	21
Leak Adjustment Amount	\$134.75	\$2910.75
Late Fee Waivers	11	69
Late Fee Waiver Adjustment Amount	\$514.25	\$1975.63

Water Production, Delivery, and Demand

For the two (2) months of the 2025-2026 Fiscal Year, the District pumped 105.0 acre-feet (AF) of Groundwater and imported 355.1 AF of supplemental water. Of the imported water, 287.2 AF was used by the District and 67.8 AF was delivered to Woodlands Mutual Water Company (WMWC) and 0.0 AF was delivered to Golden State Water Company (GSWC).

For the month of August, the District used 47.9 AF of groundwater and 149.7 AF of supplemental water.

The table below summarizes the water data for the current month and the year to date; all values are in acre-feet (AF).

	Aug-25	Year to Date Jul-25 Jun 2026
A. Total NCSD Groundwater Production	47.9	105.0
B. Total Supplemental Water Imported (B1+B2)	184.7	355.1
B1. Supplemental Water used by NCSD	149.7	287.2
B2. Supplemental Water Delivered to WMWC	35.0	67.8
B2. Supplemental Water Delivered to GSWC	0.0	0.0
Total NCSD Water Demand (A+B1)	232.6	427.2

Under the current Stage 2 of the NMMA Water Shortage Response Stages, the District's targeted groundwater pumping reduction goal is to pump no more than 2026 AFY (20% reduction of 2009-2013 average District GW Pumping of 2533 AFY). With the increased volume of imported water, the District is projected to pump less than 1000 AF this fiscal year. The District is on pace to pump 689.2 AF of Groundwater for the FY25-26.

Other Items

- Dana Reserve Project – developer submitted revised project to the County of SLO and anticipated County Board action is anticipated in November 2025
- Water Rate Study – In progress; target effective date of January 2026
- Strategic Plan Update – target date Spring 2026
- Countywide Water Action Team / DESAL update
 - o Staff attended the 8/19/2025 meeting to receive an updated presentation on the Countywide desalination plan criteria and siting alternatives.
 - o On Monday, September 15, the County will host a Virtual Community Meeting and Engagement Session for the County’s DESAL Plan, 5pm, Zoom. Visit slocounty.ca.gov/desal for the link.
 - o Community members are encouraged to complete the short online survey (available at slocounty.ca.gov/DesalSurvey) to share your perspectives on regional water resources, priorities, and potential solutions.
- Regional Water Management Group (“RWMG”) update
 - o On the 7/8/2025 County Board of Supervisors (“BOS”) meeting, the County BOS approved County staff’s recommendation to replace Central Coast Blue (“CCB”) project in the Proposition 1, Round 2 Integrated Regional Water Management Implementation Grant.
 - o The RWMG met on 9/3/2025 to discuss the schedule for solicitation for a new suite of projects that would replace the CCB; one million dollars (\$1M) in grant funding is available. The due date to submit projects is 9/29/2025.
 - o District staff will review some possible qualified projects that are “shovel ready” since the construction period will need to be completed by March 31, 2027.

Monthly Investment Policy Report

Pursuant to Section 8.A of the District’s Investment Policy, we will be posting a summary of our current investments every month.
